The Dayton Regional STEM Center:

TSC offers its signature High Quality Professional Development through the STEM Fellowship. STEM Fellows are accepted on an application and interview acceptance process. Many times through the generosity of scholarship donations and grants, the Fellowship cost is reduced or waived.

STEM Fellowship cost: \$4000 per Fellow per year

STEM Workshops are offered on a variety of STEM topics. Depending on the partnership established for the specific professional development and the topic being covered, the cost is set much in the same manner as the Custom or the Collaborative Regional Professional Development cost.
